

Building Safety Carnival 2010

Our Vice President, Mr. Stanley Wong, attended the Building Safety Carnival 2010 on 17 January 2010, which was jointly organized by Buildings Department, Hong Kong Housing Society and Urban Renewal Authority.

In partnership with three allied professional institutions, namely Hong Kong Association of Property Management Companies (HKAPMC), Hong Kong Institute of Housing (HKIH) and Chartered Institute of Housing Asia Pacific Branch (CIHAPB), we have organized an exhibition booth in the Carnival with an objective to promote and enhance public recognition of the importance of building safety and proper maintenance and management of private buildings. Apart from the exhibition, we have also organized games for members of the public to arouse their interests.
